

Masonry Saw – Wet Cutting

Facility:	Written By:	Approved By:	Date Created:	Date of Last Revision

Hazards Present:	PPE or Devices Required:	Additional Training Required:
Pinch Point	Steel toe boots	Read operators manual
Cuts	Safety glasses	
Electrical		

Safe Work Procedure:

1. Prepare water supply.
2. Install water curtain on cutting head pivot bar.
3. Start motor and be certain that both sides of the blade are getting water. Handle on petcock should be turned in linen with the water flow.
4. Ensure the water covers the bottom of the pump at all times.
5. Use step cutting with abrasive blades or jam cutting with diamond blades.

If an emergency situation occurs while conducting this task, or there is an equipment malfunction, engage the emergency stop and follow the lock out procedure
