Good morning,

Thank you for your email. Receiving no response from every Brandon Mayoral candidate may be instructive as to your approach but that can be a topic for another time.

Let me say that infrastructure is one of my top priorities in this campaign; it is included on my brochure (page attached), my website ([www.chrestformayor.ca](http://www.chrestformayor.ca)) and I discuss it at many doors as I campaign daily. I have looked at some of your information. While I would agree with much of it, I would never categorically adopt word for word the wishes of a lobby group although I do appreciate the work your association does. Acceleration of infrastructure renewal is a priority of mine and if elected, I expect will be a priority of our new Council. Our approach, however, will be a "made in Brandon" program that addresses our needs within our available resources.No doubt some of our considerations will match those of MHCA.

Thank you for your information.  
Rick Chrest  
Mayoral Candidate, Brandon
