

Ultimately, the MHCA recommends that Municipal Infrastructure Investment should be based upon the below noted four point strategy:

- First....Adopt the MHCA's suggested six principles to underpin all steps going forward; the six principles are:
 - 1) permanent program;
 - 2) focused on economic growth; (harness Operating/Capital Budgets)
 - 3) embrace innovation;
 - 4) harness partnerships with the private sector;
 - 5) transparently dedicate revenue streams; and
 - 6) ensure public review for adjustment
- Second....Implement the Infrastructure Funding Council (IFC) Report recommendations in those areas within municipal government competence
- Third....Build upon the Regional and Residential Streets Reserve dedicated accounts strategy adopted by City Council
- Fourth....Ask the Premier of Manitoba to strike the task force recommended by the IFC to review the fiscal sharing arrangements between municipalities and the Province of Manitoba.

The Executive, and Board, of the Manitoba Heavy Construction Association has adopted and approves the above noted four point strategy related to Municipal Infrastructure Investment.
