

# Alignment of WORKSAFELY™ COR™ and SAFE Work - What does this mean for me?

Over the past year WORKSAFELY™ has been working with SAFE Work Manitoba to align our COR™ program with the new SAFE Work Certified program.

## What does this mean for existing COR™ companies?

This means that our COR™ companies will continue to benefit from the national COR™ program and be eligible for the new 15% WCB prevention rebate coming into effect in 2018.

## What changes can I expect?

This process has brought about some changes to WORKSAFELY™'s COR™ audit document, including new questions and updated audit guidelines.

## Where can I find more information on these changes?

These changes are reflected in the 2-day COR™ auditor training course and the half-day refresher course. WORKSAFELY™ is offering a COR™ audit refresher course for our COR™ members who have a valid internal auditor number to communicate these additional changes. For companies new to COR™, our 2-day COR™ auditor training also includes these updates.

For questions related to these updates, please contact Phil at phil@mhca.mb.ca.

To register for the COR™ auditor refresher or the 2-day COR™ auditor training please contact Kristen at kristen@mhca.mb.ca.
