

Raising the bar with NCSO™ certification

NCSO™ certification is an ideal training application for today's construction supervisors or foremen. NCSO™ certification provides a valuable resource to management in the administration and implementation of a company's safety and health program, construction project planning and implementation.

The Manitoba NCSO™ program is open to any individual who has three years practical safety/construction experience.

In addition, to obtain NCSO™ status, you must successfully complete certification in 12 mandatory courses and a minimum of 2 elective courses.

For more information on achieving your NCSO™ certification please contact Kristen at 204-947-1379.
